when base ball is more popular than

the arrangement of the batting order

plays a big part in the science of the at-

tack. The subject gives the manager

justment, so as to get the best results.

behind him.

The batting ability of each hitter must

During all this time the New York club had right-handers in droves, and it is ined twirlers on the list in proportion to the League furnished same of the swiftest left-handers. Before the present competent staff, consisting of Ford, Vaughn, Quinn, Frill, Warhop, Manning and Hughes, was formed the following right-hand pitchers came and went: Wolfe, Contest at the end of the eighth inning, Griffith, Chesbro, Deering, Tom Hughes, Howell, Tannehill, Powell, Orth, Hogg, Clarkson, Leroy, Keefe, Bliss, Goode, Glade, Garvin, Kitson, Moore, Lake, Brockett and Doyle. The list gives some idea of the number of men who have to ever, for the good and sufficient reason be tried out to get together a real pitch-

that it is more scientific and interesting, ing staff. tack. The subject gives the manager much thought in the spring when he is shaping up his individuals, trying to bring about an interdependence of adjustment, so as to get the best results.

Stars whose averages may not show them to be at ill hefty with the stick, but who are factors to be reckoned with when a hit is needed badly, pitchers who likely as not will break up a game. Such a one is lads down in order in the following three liustment, so as to get the best results. gets hold he drives the ball hard and far. be considered, his base running ability, cure when he comes up, knowing that his skill in hitting to certain fields and there is a chance of sufficient size not to and then they are grouped in the batting the time, but he is one of those twirlers

order with relation to one another's gifts and the whole team. Primarily the idea Quinn of the Highlanders is another is to bunch the good hitters as much as pitcher who as a pinch hitter is above the mentary. The plan takes on a more slugger type and is likely to make his hits when they count most. Joe Lake subtle aspect when individual peculiarities is a natural hitter and has a good averare reckoned with. The job has a meta-physical side. Temperament is an influ-has a high average at the bat among the ence, as well as mechanical ability. | pitchers, though not as timely a hitter some players are so constituted that as some. Walsh doesn't make many hits pitchers, though not as timely a hitter they do better in one position than in another, do better ahead of a certain batter, for instance, than behind him. Take a batter who doesn't want to be hampered much with orders and who plays better when allowed to do his own classified and hell do better at the better that matter, any Al Orths

planning, and he'll do better at the bat or Bobby Carrutherses.
and on the bases ahead of a man who An evening paper the other day printed likes to work with his successor than a piece on the comparative strength of Last year Bridwell batted behind Dev- the National and, American leagues in lin in the Giants' line-up, but this year which the opinion was advanced that this he is batting ahead of him. For that year the American is playing the faster Sacrifice Hits and Stolen Bases.

matter, he is hitting better than Devlin, ball of the two. While opinions will but John McGraw explained the other differ on the point, there is reason why day that another reason for the change the opinion expressed in favor of the contested by them from the commence-ment of the season to Saturday, June 18, have made fifty-two sacrifice hits, a gain of five for the week, and they have pur- other things about a batting order as fol- goes out and digs up younger ones. As lows:

"The lead-off man should be good at getting on. He must have a good eye, be fast and a hard man to pitch to. In picking the second man you want to be seen that and a hard man to pitch to. In picking the second man you want to be seen that and a hard man to pitch to. In picking the second man you want to be seen the two loogs of the second man you want to be seen the two loogs of the second man you want to be seen that and digs up younger ones. As ing the second man you want to look for tween the two leagues is a condition likeone who is fast enough not to be doubled easily and one who can pull a ball around to right field in order to send the first have the edge on its rival. man around to third base on the hit. The There isn't any doubt that last year SH. Gain for third and fourth men are hard hitters, and and two or three years prior to that the lune 11. week. the fourth man is the clean-up hitter. National League played faster ball than Then with the others the thing to do is to the American; played with more vim and get the good hitters and good base run- fought its battles out harder. This year ners together to get the most runs possi- a change has come over the order of things. The American League is playing "Is Seymour as good a clean-up hitter faster and more determined ball than for

several years, more up-to-date and re-"No, I don't know that he is, but the sourceful ball. Not all of the clubs are reason Murray comes ahead of Seymour doing it, but more of them than before, is that he is a better base runner and can and the whole league feels the effect. is that he is a better base runner and can do more ahead of than behind Seymour."

A study of the batting olders of the big league teams will show that the same ideas hold for all. The lead-off men are almost without exception fast, good waiters almost without exception fast, good waiters almost without exception fast, good waiters and hard to pitch to. Among them of seven games is no proof of the supersonable that the cubs. Pirates and Giants in the world's series could is altogether probable that the Cubs. Pirates and Giants in the world's series could is that he is a better base runner and can do the whole league feels the effect. The young teams built up, or being built up, by New York, Philadelphia, Boston and Chicago are setting a fast pace.

The fact of one league or another winning a world's championship in a series of seven games is no proof of the supersonable that the Cubs, Pirates and Giants in the winner, though it is altogether probable that the Cubs, Pirates and Giants in the years they won the world's series could a lot of left handers among the second years they won the world's series could men, men who can hit to right, such as Wolter, who hits to both fields; Doyle, Sheckard, Clarke, Lelivelt, Ellis, Daubert strength to do so and in years when and Niles. Or if they aren't left-handed their league as a whole was playing the hitters they are fast and hard to double. faster ball. The point, however, is sim-Then come your hard hitters and cleanup hitters such as Murray, Chase, Laporte, Chance, Mitchell, Gessler, Cobb, Veterans and recruit younger and faster 2 Crawford, Wagner, who has been shifted to third place recently, with Byrne going to fourth; Dougherty, Lewis, Wheat, result of getting younger and more ambitious players was a speedier game. ington Federation. The pigeons received their secret racing Contracts—With Cincinnati, J. B. Doyle,
Thomas McMillan, Arthur Phelon.

Player C. E. Webb, released by Pittsburg to New Britain, has been recalled

The pigeons received their secret racing band in the various central countermarking sections on Tuesday and Wednesday ing sections on Tuesday and Wednesday where they were met by Mr. Young, who accompanied them to Midland, Canada. The birds, which are expected home some time late this afternoon, are competing for very valuable prizes, amounting to hundreds of dollars. But for the disagreeable spring, upward of 10,000 birds would have been engaged in this race, but the losses occasioned by the heavy rains have thinned out the entries. On their homeward flight every obstacle to which a racing pigeon could be put will be encountered, making it a thorough test of pluck and stamina. The barren wastes of Canada will give way to the uncertain lake of Ontario, after which vania will loom in view, and those that get successfully home will establish with-out the slightest doubt their right to be termed the "American racing pigeon." In last year's race the winner flew at created a new record for the distance. Great interest is being manifested by from continent to continent, especially to England, whose representative is in touch with the combine officers. The first news of the race will be published

ANALOSTAN GUNNERS.
